Today is the first blank page of a new 365-page book. It is your story to tell !

As glasses are raised and fireworks explode into the sky, it's important to recognize the special symbolism that the New Year brings. It has been a challenging year for us all. But let us not forget our blessings. 2020 was a year to be grateful. A Happy New Year messages should speak to new beginnings and fresh starts, as well as a time of reflection. Whether your New Year resolutions consist of losing weight, keeping your hands out of the cookie jar or giving your heartfelt word to work on relationships with loved ones, it can take a lot of effort. So, open the book and start your story. Remember to include words of kindness, empathy, love, laughter, gratitude, and faith!

Every end marks a new beginning. Keep your spirits and determination unshaken, and you shall always walk the glory road. With courage, faith and great effort, you shall achieve everything you desire. I wish you and your families a Happy New Year!!

FOUNDER'S MESSAGE

Greetings My Dear Team,

What a year it has been indeed!!!! We SURVIVED the pandemic and the biggest world economic downturn. I am proud to lead you as a team. We saw all our team members innovate and adjust their work/home life according to the new normal conditions without warning or readiness.

I am extremely proud of the progress we made in the “New Normal” Conditions in 2020. All of us no doubt gained much experience in facing various types of challenges. Our adaptability, attitude and teamwork were our key to survival. Whilst many organizations reduced staff and remuneration, we managed to stay afloat.

With the experience gained and great teamwork, let us try to achieve 10% more of our monthly target from this month onwards.

Whilst I take this opportunity to Thank each and every one of my team members, for the effort I also take this opportunity to wish all of you and your families a Bright and Prosperous 2021 !!!

MESSAGE FROM CIVICON

My Dear Team members ,

2020 indeed was a challenging year for all of us . Civicon Engineering as a construction company was affected gravely. It really required a colossal amount of effort to remain in the construction industry. With the many challenges we faced, we learnt many lessons. We learnt that it is required to think out of the box and one must be vigilant to observe any opportunity that may succumb. I like to emphasize, there are no superiors or supervisors at Civicon Engineering but all employees are family. It is when we embrace the business as our own that we will be able to add value to the business which in turn will grow. If the organization grows so do its employees. Employees are most valuable asset. Thus, even with Covid continuing I emphasize that we all must continue to **ALWAYS obey social distancing norm and Covid protocols.**

Ceilão Logistics Group in Kochikade , CLG Services team of Fonterra Operations in Aranagala, ustore team at Kiribathgoda, Australian Talent Network in Kelaniya - Thank you for the effort, sacrifice and agility throughout the year which helped us to sustain ourselves.

The new year is upon us. This provides an opportunity to look at the successes of the past year and set new goals for the future. We are pleased to strive those goals with you.

I also take this opportunity to urge each one of you to Welcome responsibilities as it will bring in more chances of being successful and prosperous in this New Year Wishing each and every one of you and your families a Bright and Prosperous 2021 !!!!

MESSAGE FROM THOMAS PEER

Dear Partners and Friends,

As I reflect on the performance of Thomas Peer Solutions in 2020, every nation and economy has now experienced profound impacts resulting from the greatest health threat in a generation. I do not need to tell you the foreseeable lasting changes this will have on the working culture in the years to come. Nor do I need to use IT buzz words like mobility management, data backup or cyber resiliency. As these fundamentals are now firmly entrenched in the minds of boards of all organisations.

Now, there really is no better time to be invested and involved in a technology consulting and services provider! Especially one that stakes its reputation towards delivering reliable service. Thomas Peer was founded (and branded) to be an organisation's trusted 'peers' in IT and technology consulting. Throughout 2020, I have ensured that all staff and company procedures remain true to these guiding principles when dealing with our clients during these uncertain times.

I am personally proud to say that the result has been satisfied customers that will remain loyal for years to come. In addition to building major infrastructure projects pipeline and increasing run-rate resale, Thomas Peer Solutions' has achieved a massive upswing in our portfolio of managed service contracts. In addition to increasing the subscriptions of our existing products, we have also developed, refined and launched new managed service offerings that were immediately adopted by our loyal client base. Likewise, we have built substantial pipeline that we will continue to close with the achievable goal of developing managed services into a major annuity generator.

Despite the disruption compared to previous years, Thomas Peer Solutions' is in as a healthy position. I am forecasting that we will meet and exceed our financial targets during the remainder of the financial year.

Wishing you all seasons greetings and the best for the new year,

Udara Dharmadasa
CEO
